

February 8, 2021

Dear Mayor,

As the COVID-19 pandemic wears on, Elizabethtown Gas recognizes that challenging times continue for residents and businesses.

In an effort to help inform the communities we serve, I have attached an Energy Assistance Fact Sheet that includes an overview of available programs and resources for customers, and links to more detailed information and program applications. We invite you to share this important information through your social media outlets, municipal website, and other channels you deem appropriate.

Additionally, should you wish, Elizabethtown Gas representatives are available to participate in virtual speaking engagements regarding energy conservation methods and energy assistance programs. This information is also available in print form, should you prefer.

Elizabethtown Gas remains a dedicated community partner while continuing to provide safe, reliable, and affordable natural gas service to our customers who depend on us.

If you would like more information about these programs or have any further questions, please feel free to connect with our Energy Assistance Coordinator, Daisy Trocan, at 908-662-8475.

Best regards,

Safeer Quraishi
